## SCHOOL NOTES.

The Declamatory Contest which was held last Tuesday evening at the High School was a grand success. The students showed splendid training and all seemed to be at their very best. We are expecting to get first place at the Cape Girardeau contest this year as our representative makes a splendid showing. The contestants ranked as follows: Marie Ziegler 1st, Rita Wilder 2nd, Marguerite King 3rd and Paul Rigdon 4th. None of these students should be discouraged however, for they were all good and only differed by a small margin.

The High School basketball boys are strutting around now like peacocks since they came into possession of the last two trophy cups. This makes three in all this year and is really something to be proud of. Second place in all Southern Missouri, first place in the Northern division of the Lead Belt League, and the championship of the whole Lead Belt League, isn't a bad showing at all.

The most important event that has happened in our schools for some time, to fact for the whole year, is the fact that one of our teachers has been called to the colors. Mr. Edwin Koetting, our teacher for the 7th and 8th grades left for the Navy Thursday morning. We are proud that one of our number has volunteered to fight for his country. We wish him God speed and hope that he will soon return, where he has won so many friends and whose example has been such that no parent need fear the effects of his influence on their child.

## To Stimulate Use of Cottage Cheese.

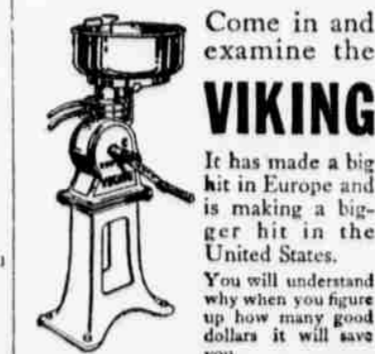

One of the best means of conserving meat is by the use of cottage cheese. Heretofore, an enormous loss of food has occurred through the waste of skim milk. Some idea of the value of the skim milk that is wasted may be had from the statement by the United States Department of Agriculture that the food value of the skim milk which is wasted each year is greater than the total food value of all the meat produced in the United States during the same time.
